

Subject: Important PPG Supplier Changes – Please Read

PPG is implementing ePro, a global solution to interact with our suppliers. This solution is hosted by Jaggaer and will be rolled out beginning in February 2021. **It is mandatory to join and complete the registration process in ePro to do business with PPG.**

We are excited about the benefits this process will bring for PPG and our suppliers, including:

- Registering, transacting, and maintaining your supplier data in ePro with no fees
- Enhanced capabilities when participating in sourcing events and contract negotiations
- Simplified, electronic transmission of purchase orders (POs) and invoices
- All-in-one platform with real-time visibility of POs, invoice status and payment information

Beginning in February 2021, we will communicate the specific actions you need to take to complete the registration process. Please look for these communications so you are prepared for the launch of ePro.

#### **Additional Information**

Click [here](#) for frequently asked questions (FAQs) on the transition to ePro or visit our [Supplier Information Center](#) for more details. If you transact with PPG using Ariba today, you will transact on the Jaggaer platform after the ePro go-live.

Thank you in advance for your support of this important PPG initiative. We look forward to doing business with you via ePro in the near future!
